

Physical Science Lesson 1
Matter (Grade K)
Instruction 1-2
Solids, Liquids, & Gases
Worksheet 1

Name: _____

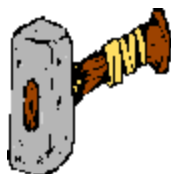

Date: _____

Solids, Liquids, & Gases

Solids have a shape that does not change. They have a definite size.
Liquids are runny and take the shape of their container. Liquids flow and have a definite volume.
Gases are very light and take the shape of their containers. Gases flow, but have no definite volume. Because they have no definite volume, they always fill their containers.

Look at each object. Decide which object is a solid, liquid or gas. Cut out pictures and glue them in the right spots.

Liquids	Solids	Gases
